

## Reason for Referral to Central Intake Definitions

<b>Primary care for myself</b>	General health doctor, family practitioner, health care provider/physician, medical home, etc...
Medical Home	is the home base for any child's medical and non-medical care. The medical home is a cultivated partnership between the patient, family and primary provider in cooperation with specialists and support from the community.
<b>Primary care for my children</b>	Pediatrician, Federally Qualified Health Center - FQHC, family practitioner, child's health care provider.
<b>Prenatal care</b>	a type of preventive healthcare with the goal of providing regular check-ups that allow doctors or midwives to treat and prevent potential health problems throughout the course of the pregnancy while promoting healthy lifestyles that benefit both the mother and child.
Prenatal care providers	Private Practice Obstetrician/Gynecologists (OB/GYN), Prenatal clinics
Prenatal Care practitioners	OB/GYN, Midwife, Family physicians
<b>Public Benefits</b>	Social Service assistance such as TANF - Temporary Assistance for Needy Families, SNAP – Supplemental Nutritional Assistance Program (formerly food stamps) and WIC – Women, Infants and Children (Special Supplemental Nutrition Program).
<b>In-home parent support</b> <b>Home Visiting services:</b> Parent Education and Support Parent/Child Activities Health Referrals	Evidenced based home visiting programs assign a home visitor/parent educator, nurse or family support worker to provide personalize health education and support during pregnancy. After the birth of the child; parent education, information and interactive parent child activities are provided to support the healthy growth and development of children up to age 3 years old, some programs up to 5 years old. Additional home visiting services include developmental screening, linkages to health insurance, medical home, family goal setting, and much more.
Healthy Families	is a program designed to help expectant and new parents get their children off to a healthy start. (Enrolls pregnant women and children under 3 months old or children up to 12 months if they are receiving TANF (TIP)
Nurse-Family Partnership	helps first-time moms to prepare for the birth of their child and gives them the support they need to support their child's growth and development. (Enrolls pregnant women up to 28 weeks)
Parents as Teachers	promotes the optimal early development, learning and health of children by supporting and engaging their parents and caregivers. (Enrolls pregnant women and children up to 3 years old.)
<b>Assistance connecting to services</b> <b>(Community Health Workers)</b>	Community Health Workers (CHW's) connect women to providers and services in their community. They conduct outreach in targeted neighborhoods, provide educational workshops and group activities; and offer case management services to women not currently connected to care and/or could use one on one support in navigating systems.
<b>Group parent support</b> <b>(Family Success Centers)</b>	Family Success Centers are a "one-stop" shop that provides wrap-around resources and supports for families before they find themselves in crisis. They offer primary and secondary child abuse prevention services to families and bring together concerned community residents, leaders and community agencies to address the problems that threaten the safety and stability of families and the community.
